Lund Report Data Requests
1. **I would also like a breakdown of the .370 population by county so I can focus on the 6-7 counties that have sent more than their share to the state hospital.**

   Below is a chart listing the current Aid & Assist patient census by county and highest charge classification as of Monday, May 16th, 2016:

County	Population (2014 Census Est.)	% of State Pop.	Aid & Assist Census	% of Census	Felony A	Felony B	Felony C	Felony U	Felony Total	Felony %	Misd. A	Misd. B	Misd. C	Misd. U	Misd. Total	Misd. %	No Charge Listed
Multnomah	776,712	19.6%	53	24.9%	10	4	20		34	64.2%	14	1	1	2	18	34.0%	1
Washington	562,998	14.2%	17	8.0%	1	2	7		10	58.8%	7				7	41.2%

Wheeler	1,375	0.0%	0	0.0%													
Total	3,970,239	100.0%	213	100.0%	34	18	88	3	143	67.1%	54	7	1	4	66	31.0%	4

2. **I'd also like county-level data as a trend, so I can see how counties like Lane have risen while Marion has decreased.**
    Below is a trend graph showing the Aid & Assist patient census counts at the beginning of each month over the last 12 months for the six counties with the highest census as of May 16th, 2016:

3. **And if the state and county-level data can be broken down by felony vs misdemeanor A/B/C.**

    This has been provided in the chart for request #1.

4. **If you could pull up the average census of .370's in 2005 through 2009 that would be good so I can confirm that the trend started in 2011 and took off again in 2014.**

    We don't have average census, or average daily population, by legal status until 2012 (when Avatar went live) but we do have the census counts at the beginning of each month going back to 2000:

OSH Aid & Assist (.370) Patient Census by Month since 2000
(Based on census count at the start of each month)

5. Aid & Assist patients who come back as GEI.

Since 2012, 5.3% of all patients discharged under an Aid & Assist legal status have been readmitted as a Guilty Except for Insanity (GEI) patient at any point after their discharge. The range of days between discharge and readmission is from as quickly as 12 days to as long as 1,205 days. For patients who readmitted as a GEI patients within 90 days of their previous Aid & Assist discharge, the percentage is 1.4% since 2012.

Year	Aid & Assist Discharges	Readmited as GEI #	Readmited as GEI %	Readmited as GEI within 90 Days #	Readmited as GEI within 90 Days %
2012	361	29	8.0%	8	2.2%
2013	390	19	4.9%	3	0.8%
2014	459	29	6.3%	5	1.1%
2015	490	20	4.1%	8	1.6%
2016	216	4	1.9%	3	1.4%
Total	**1916**	**101**	**5.3%**	**27**	**1.4%**
