| 2004-05     | 188.9                | 35,874          | 42,160   | 37,400        | 43,953   | 19,457         | 22,866   | 36,277        | 42,634   |
| 2005-06     | 195.3                | 38,080          | 43,286   | 39,225        | 44,588   | 20,297         | 23,072   | 37,495        | 42,621   |
| 2006-07     | 201.6                | 39,885          | 43,921   | 40,752        | 44,876   | 22,260         | 24,513   | 39,377        | 43,362   |
| 2007-08     | 207.3                | 41,861          | 44,829   | 42,841        | 45,879   | 22,929         | 24,555   | 41,429        | 44,367   |
| 2008-09     | 215.3                | 43,474          | 44,848   | 44,514        | 45,921   | 24,838         | 25,623   | 43,543        | 44,919   |
| 2009-10     | 214.5                | 45,281          | 46,864   | 46,202        | 47,817   | 26,795         | 27,732   | 45,935        | 47,541   |
| 2010-11     | 218.1                | 46,339          | 47,168   | 47,634        | 48,486   | 28,214         | 28,719   | 49,552        | 50,438   |
| 2011-12     | 222.0                | 48,254          | 48,254   | 49,373        | 49,373   | 30,753         | 30,753   | 51,281        | 51,281   |

Note: Constant 2011 Dollars were calculated using the CPI for the first calendar year of which the academic year is a part; for example, for the school year 2002-03, the actual data were adjusted to constant 2011 dollars using the CPIs of 2002 and 2011. The 2011 CPI is a projection. The data for prior years may differ from that previously reported due to school updates and changes in school status. Beginning with 1995-96, resident and nonresident tuition and fees for private schools are reported separately. Beginning in 2004-05, the survey began collecting health insurance fees and including them in the total tuition and fees.
